Jesse (Phase II)

Model **CT 3619**, Photo by **John B.**

Description: Clone Trooper Jesse (Phase II)

Prefix: CT

Detachment: Clone Trooper Detachment

Context: The Clone Wars: Season 4

Jesse serves in the Grand Army of the Republic as a hard-fighting, well respected soldier. As a loyal Republic trooper, Jesse proudly wears the cog-shaped symbol of the Galactic Republic. Jesse is well-mannered and often shows concern for other troopers.

The 501st approval requirements are listed in black.

In the page below, items listed in blue are recommended features that will improve the quality of the costume. Items listed in red are intended to further enhance the finished costume.

For 501st membership only the requirements in black need to be met.

IMPORTANT: The "Animated" armor design, seen in The Clone Wars CG Series, differs from the "Realistic" armor design used to create characters from the theatrical films and graphic novels. See [this thread at clonetroopers.net](#) for the differences between the sculpts.

This Visual Guide has been reviewed by the detachment staff and the LMO team and is certified for use as a minimum approval guideline for GMLs. GMLs are free to approve this costume type.

- Any uncertainties or questionable aspects of the submitted costume should be brought to the appropriate DL/GML peer review section of the legion forum.

Required Costume Components

The following costume components are present and appear as described below.

Helmet
For 501st approval:

- Armor is painted matte or satin white.
- A large Galactic Republic symbol covers nearly the entire front and top of the helmet dome.
- The blue line across the top of the eye lens extends around to the back of the helmet and converges with the larger blue section on the rear quarter.
- The helmet eye lens and nose area are outlined in blue with the lines converging to a point over the lower chin area.
- The rectangle ear caps are painted grey.
- 6 vents on each side of helmet.
 - ◆ Vents may be painted black or grey, or cut out and filled with black mesh.
- The rear of the helmet has an indented band that is filled with a slightly darker shade of blue than what is on the front of the helmet.
- Each rear quarter of the helmet, from the backside of the earpieces to the center rear section, is painted blue, including all four walls of the indented section.
- The center round cap, on the rear of the helmet, is painted grey.
- Weathering of blue areas includes various scuff marks and fading.
- Weathering of white areas are shades of grey.
